

Lightweight HF-1 Aluminium TLT Axial Fan Blade For Forced Draft Fan

Our Product Introduction

Basic Information

- Place of Origin: Shanghai
- Brand Name: YIKU
- Model Number: S1GA3082
- Minimum Order Quantity: 1 piece
- Price: negotiable
- Packaging Details: Wooden box
- Delivery Time: 2-3month
- Payment Terms: L/C, T/T
- Supply Ability: 20 units/month

Product Specification

- Name: Aluminum Blade
- Model: S1GA3082
- Material: HF-1
- Weight: 3.5kg
- Purpose: Combustion Support, Coal Powder Delivery
- Applicable To: Forced Draft Fan, Primary Air Fan
- Highlight: **lightweight TLT Axial Fan Blade,
aluminium TLT Axial Fan Blade,
aluminium industrial fan blade**

Product Description

HF-1 aluminum blade fan impeller blade

在 力, ,水泥,造 等行 中大量使用的 机 ,因 送的气体介 中含有大量的硬 粉 粒和酸性气体, 些 的 流部件,受到 烈的冲刷腐 ,尤其是 其心 部件叶 ,在其叶片的末端 行 速度 到160米 秒,磨 速度比其它部位更 重.尤其是 机叶片的磨 最 重,因而使 机 子的平衡遭到破坏,引起 机振 ,短 机寿命, 重 可使 机不能正常工作.

Fan equipment widely used in the electric power, steel, cement, paper and other industries, because the gas medium contains a large number of hard dust particles and acidic gases, the flow parts of these equipment are strongly eroded and corroded, especially the heart part of the impeller, the running line speed at the end of the blade reaches 160 meters per second, and the wear rate is more serious than other parts. In particular, the wear of the fan blade is the most serious, so that the balance of the fan rotor is destroyed, causing fan vibration, shortening the life of the fan, and in serious cases, the fan can not work normally.
